Is the scaffold suspended from outriggers?

CIRCLE If yes

CD5 (permit issued by NYC DOB) is required; we require a copy in our file.

Is the scaffold suspended from the parapet (C-clamps or parapet clamps)?

CIRCLE If yes

We require the engineer's letter stating that the parapet is capable of bearing the load of the scaffold.

General requirements:

- Compliance with all directives issued by NYDOB _Scaffold Safety Team
- A copy of the special riggers license is to be sent to Corinthian Cast Stone
- Riggers insurance certificate, naming Corinthian Cast Stone Inc., as additional insured's.
- Access to the scaffold inspection log (to be viewed on site by CCSI site personnel)
- CCSI personnel are required to visually inspect the scaffolding and safety equipment in place on the site.
- It is required that CCSI personnel "riding the scaffold" be issued a "certificate of fitness" by the licensed rigger on site.
