### THE MOST EXCITING YANKEE STADIUM PRODUCT EVER!

Ask any Yankees fan what made the old Stadium distinctive, and he or she will tell you it was that regal concrete frieze (also known as façade) that wrapped around the top of the ballpark like a crown. It is one of the most distinctive features from the original 1923 Yankee Stadium. Steiner Sports delicately dismantled the old frieze, section by section, crushed it up, and had these amazing 1923 Gate 4 Yankee Stadium replicas produced. This replica weighs in at nearly 7 lbs, measures 8" wide, by 6" high and 3" deep, and is sure to be one of the most prized collectibles in your (or the person your buying it for's) collection! This piece is one of the hottest gift items any Yankees fan could ever receive, and will be in their collection for generations. Take home this amazing piece of the original Yankee Stadium, which comes complete with a Steiner Sports Certificate of Authenticity.
